

REFACTORTACTICS v0.1 - SKILL TAXONOMY

Cheat sheet LARGE - Pagina 1: timing, target, geometria e applicazione

1. PHASE / TIMING

CATEGORIA	VALORI / NOTE
PHASE	Planning, Prep, Dash, Blast, Move, Cleanup.
TIMING QUALIFIER	Immediate, Delayed, Persistent, Triggered, Start Turn, End Turn, Until Triggered. Reaction non e una macro-fase.

2. APPLICATION / TARGETING

CATEGORIA	VALORI / NOTE
TARGET	Self, Unit, Cell, Direction, Path.
UNIT RELATION	Ally, Enemy, Any.
SHAPE / GEOMETRY	Single, Line, Ray, Cone, Circle, Ring, Cross, Arc, Rectangle, Wall, Chain, ConnectedRegion.
DELIVERY	Direct, Projectile, Beam, Lob, Ground.
HIT RULE	First, All, StopOnUnit, StopOnBlocker, PierceUnits, Chain.
RANGE / SIZE	Range, Min Range, Max Range, Radius, Width, Length, Targets, Hits. Mai mostrare un numero senza etichetta.
TARGET LOSS / RESOLUTION	LOCK CELL, TRACK UNIT, RETARGET, FIZZLE.

Formula rapida: PHASE + TARGET + SHAPE + DELIVERY + HIT RULE + RANGE/SIZE

REFACTORTACTICS v0.1 - EFFECT / OUTCOME

Cheat sheet LARGE - Pagina 2: effetti, danni, ambiente, status e controllo

3. EFFECT / OUTCOME

CATEGORIA	VALORI / NOTE
PRIMARY EFFECT	Damage, Heal, Shield, Armor, Push, Pull, Displace/Reposition, Apply Status, Remove, Refresh, Consume, Control, Resource, Environment/Surface, Cover/Structure, Graph/Traversal, Utility.
DAMAGE TYPE / NATURE	Kinetic, Fire, Electric.
DAMAGE SOURCE	Direct, Environmental.
ENVIRONMENT / ELEMENT	Water, Fire, Electric, Cold, Ice, Metal, Steam, Smoke.
SYSTEM VERBS	Generate, Apply, Propagate, Transform, Consume.
STATUS v0.1	Root, Slow, Reveal, Exposed, Guarded, Marked, Wet, Braced, Burning, Obscured, Electrified.
CONTROL / DISPLACEMENT	Push, Pull, Knockback, Slide, Throw, Teleport, Swap, Root, Anchor, Stun, Silence, Interrupt.
DURATION / PERSISTENCE	Instant, 1 Turn, N Turns, Persistent, Aura, Until Triggered, Until Broken, Refreshable, Stackable.

Nota: Damage Type, Shape e Damage Source sono assi diversi. Smoke e un fenomeno ambientale/visibility modifier, non automaticamente un Damage Type.

REFACTORTACTICS v0.1 - MODIFIER / COUNTER / CONDITION

Cheat sheet LARGE - Pagina 3: proprietà interne, modificatori esterni, difese e trigger

4. MODIFIER

CATEGORIA	VALORI / NOTE
SKILL MODIFIER	Piercing, Chain N, Bounce, Ignore Cover, Stop on Blocker, Hits All, Armor Piercing, Special Moving-Target Policy, Friendly Fire Possible, Stop on First Target.
CONTEXT MODIFIER	Fonti: Unit, Status, Talent, Cell, High Ground, Surface, Ally, Objective, Scenario Rule. Esempi: Damage +5, Range +1, Chain +2, Cost -1, Ignore Cover.

5. COUNTER / DEFENSE

CATEGORIA	VALORI / NOTE
COUNTER / DEFENSE	Armor, Kinetic Resistance, Fire Resistance, Electric Resistance, Cover, Dodge / Active Defense, Shield, Control Resistance, Status Resistance, Geometry / Blocker.

6. CONDITION / TRIGGER

CATEGORIA	VALORI / NOTE
CONDITION / TRIGGER	Target Wet, Target Marked, If Flanked, HP < X%, On Hit, On Shield Break, On Entry, Start of Resolution, Requires LoS.
TRIGGER EVENTS	OnHit, OnShieldDamage, OnHealthDamage, OnStatusApplied, OnDisplaced.
REQUIREMENTS	Fonti: Unit, Status, Talent, Position, Environment. Esempi: LOS Required, No LOS, Min Range, Max Range, Wet Target, Marked Target, Empty Cell, Ally Nearby, Elevation.

Distinzione chiave: Piercing = attraversa target; Armor Piercing = ignora Armor per quell impatto; Armor Shred = modifica Armor come Effect.

REFACTORTACTICS v0.1 - COSTI / DISPONIBILITA / UI

Cheat sheet LARGE - Pagina 4: costi, cooldown, disponibilita, certezza e grammatica visiva

7. COST / COOLDOWN / CHARGES

CATEGORIA	VALORI / NOTE
COST	AP, Energy, Health, Ammo, Charges. Estensioni possibili: Heat, Special Meter.
COOLDOWN / CHARGES	Ability Cooldown (N turni), Shared Cooldown Group, Charges Max/Current, Recharge N turni, Recovery/Lockout, Conditional Modification.
RECHARGE POLICY	OneChargeAtATime, AllChargesTogether, ExplicitEventRecharge.

8. AVAILABILITY / INFORMATION

CATEGORIA	VALORI / NOTE
AVAILABILITY	AVAILABLE, CONDITIONAL, UNAVAILABLE, INVALID.
VALIDITY	VALID, CONDITIONAL, INVALID.
CERTAINTY	CONFIRMED, PREDICTED, UNCERTAIN.
KNOWLEDGE	VISIBLE, HEARD, LAST KNOWN, UNKNOWN.

9. GRAMMATICA VISIVA DELLE ICONE

CATEGORIA	VALORI / NOTE
CORE GRANDE	Comunica subito la funzione principale: danno, cura, push, barriera, mina, dash, ecc.
ANELLO / CATEGORIA	Segnale secondario per leggere rapidamente la famiglia della skill.
CODA / FRECCIA	Indica direzione, traiettoria o area di influenza.
PICCOLI MARKER	Stato, condizione, potenza, chain, pierce, target relation, ecc.
COLORE	Accelera la lettura, ma non deve essere l unico canale informativo.
COMPOSIZIONE	Costruire una libreria di primitive riusabili; evitare un icona unica per ogni combinazione.

REFACTORTACTICS v0.1 - CHECKLIST SKILL

Cheat sheet LARGE - Pagina 5: controllo finale mentre progetti una nuova abilita

10. CHECK RAPIDO IN 10 DOMANDE

N.	DOMANDA / CATEGORIA
1	Quando avviene? -> Phase / Timing
2	Chi o cosa seleziona? -> Target / Relation
3	Che geometria ha? -> Shape / Range / Size
4	Come arriva? -> Delivery / Hit Rule
5	Cosa produce? -> Effect / Damage / Status
6	Ha proprieta proprie? -> Skill Modifier
7	Cambia in base al contesto? -> Context Modifier
8	Cosa la contrasta? -> Counter / Defense
9	Richiede un SE / QUANDO? -> Condition / Trigger
10	Quanto costa e quanto spesso? -> Cost / Charges / Cooldown

11. FORMULA COMPLETA

CATEGORIA	VALORI / NOTE
SKILL	PHASE / TIMING + APPLICATION + EFFECT + SKILL MODIFIER + CONTEXT MODIFIER + COUNTER / DEFENSE + CONDITION / TRIGGER + METADATA ESTERNI.

12. SCOPE v0.1

CATEGORIA	VALORI / NOTE
CANONICO ORA	Self/Unit/Cell/Direction/Path; geometrie e delivery elencate; Kinetic/Fire/Electric; status v0.1; modifier/counter/condition; costi/cooldown/charges.
ESTENSIONI FUTURE	Object, Structure, Objective, Hazard, Empty Cell, Heat, Special Meter e alcuni status avanzati. Non considerarli automaticamente congelati nella v0.1 finche non entrano nei dati vivi.

Obiettivo di questa scheda: guardare le liste durante il design delle skill senza dover aprire i PDR.
